10. Public Comment

John Chimigris, 7165 Sunfish Cove, Perkinston, Mississippi, addressed the Board regarding flooding issues at Silver Lake in the White Cypress subdivision. Mr.

Chimigris stated that approximately ten years ago the lake experienced problems after the drain was opened, causing the lake to remain dry for several years. He explained that he owns a rental property on the lake and that the lake's water level fluctuates depending on operation of the drain and levee system. He noted that the lake is man-made and is affected by rainfall and drainage conditions. Mr. Chimigris also stated that he owns approximately 350 acres located at the end of Rainbow Road, about three blocks from the rental property.

Mr. Chimigris reported that, in May, his rental property flooded for the first time following a heavy rainstorm. He stated that the property flooded again during the first named tropical storm of the season and has since experienced another flooding event.

Supervisor Shaw stated that Silver Lake is a private lake and that the Board of Supervisors does not have jurisdiction over it.

County Administrator Jimmie Ladner stated that the drain pipe at the bottom of the lake had previously been removed and filled with concrete, preventing the lake from draining. He explained that the County cannot repair the drain because it is located on private property. Mr. Ladner further stated that the matter will need to be addressed by the subdivision's property owners, as the lake is shown on the subdivision plat and each property owner has an interest in it. He suggested researching the status of the homeowners association (HOA), including whether it had been formally dissolved, as that information may assist in determining responsibility for the lake's maintenance.
