NOTICE OF HEARING To: General Public and affected property owners listed herein below Re: September 7, 2021 Hearing to Determine Whether Described Property Constitutes a Public Nuisance Hearing Location: 854 Highway 90, Bay St. Louis, MS 39520 (Hancock Co. Board of Supervisors/Board Room) THE HEARING NOTICED IS IMPORTANT AND YOU MUST TAKE IMMEDIATE ACTION TO PROTECT YOUR RIGHTS. The Hancock Board of Supervisors ("the Board") has issued a resolution invoking its authority pursuant to Miss. Code Ann. 19-5-105 to hold a hearing to determine whether or not the below described real property constitutes a public nuisance due to the presence of a fire and safety hazard on the premises, and/or other conditions on the premises. The Board will hold a hearing on September 7, 2021, beginning at 1:30 p.m. to determine whether the described property constitutes a menace to the public health and safety of the community. IF YOU DO NOT AGREE THAT THE DESCRIBED PROPERTY CONSTITUTES A MENACE TO PUBLIC HEALTH AND SAFETY, YOU MUST APPEAR AT THE HEARING TO CONTEST THE ISSUE. In the event that the Board determines at the hearing that the described property constitutes a menace to the public health and safety of the community, the Board may, if you do not do so, proceed to clean the land by removing the hazardous structures from the described real property. An adjudication at the hearing that the property or parcel of land is in need of cleaning will authorize the board of supervisors to reenter the property or parcel of land for a period of one (1) year after the hearing without any further hearing, if notice is posted on the property or parcel of land and at the county courthouse or another place in the county where such notices are generally posted at least seven (7) days before the property or parcel of land is reentered for cleaning. A copy of the required notice mailed and posted as required by Mississippi Code Section 19-5-105 shall be recorded in the minutes of the board of supervisors in conjunction with the hearing required by said section. After the property is cleaned, the Board may by resolution adjudicate the actual cost of cleaning the property and the assessment would become a lien against the property to be enrolled and enforced by sale of the land in the same manner as liens to enforce delinquent taxes. The properties that are subject to the hearing are the following: 7120 Magnolia Street Bay Saint Louis, MS 39520 Trustmark National Bank 201 Country Place Parkway Pearl, Mississippi 39208 Ordered this the 2nd day of August, 2021. Industrial Track Lease

This Lease is entered into between Hancock County Port & Harbor Commission – Port Bienville Railroad ("Lessor" or "PBVR"), and Polychemie Inc. ("Lessee"), a Delaware corporation.

WHEREAS, Lessor has approximately 2,602.74 feet of track, defined in Exhibit A attached hereto (hereinafter referred to as the "Track"), that Lessor is willing to lease to Lessee; and

WHEREAS, Lessee desires to lease the Track to manage inbound and outbound movement of railcars at its site in Port Bienville Industrial Park; and

WHEREAS, Lessor is willing to lease the Track to Lessee for such use.

NOW, THEREFORE, in consideration of the mutual covenants herein, the parties hereby agree as follows

Article I - Track

Section 1.01 Lease of Track. Lessor leases to Lessee and Lessee leases from Lessor the Track for Lessee's exclusive use subject to the terms and conditions set forth herein.

Section 1.02 Track Use. Lessee is permitted to use the Track for in-inbound and outbound railcar movement in support of Lessee's operations at its plant in Port Bienville Industrial Park, and for railcar storage. Lessee's use of the Track shall further be subject to Lessee's Operation Plan set forth in Exhibit B attached hereto. For clarification and shown by the attached survey in Exhibit A, Lessee shall be allowed to use the portion of the track from Road D to the Eastern clearance point for storage and interchange. Lessee shall be allowed to use the portion of track from Road D to the Western clearance point for switching purposes only, may not block Road D and may only cross Road D for fifteen (15) minutes intervals so as to allow for through traffic. All other uses of the Track are prohibited without the prior written consent of Lessor. Examples of restrictions would include items such as railcar maintenance or repair or offloading of material. No provision in this Agreement shall obligate Lessor to handle or move any Cars other than as expressly set forth in this Agreement. This Agreement does not constitute permission for Lessee's employees or agents or any other person to enter upon the Track of Lessor other than the Track, except with notice and the permission of Lessor.

Article II – Term

Section 2.01 Term of Lease. The initial term of the Lease ("Term") is three (3) years, beginning on October1, 2021. Thereafter the Term shall renew for successive periods of three (3) years unless and until terminated by either party upon no less than 180 days prior to the end of the initial Term or any renewal Term thereafter. At each successive three year renewal, a three (3) percent increase will be added to the Lease Amount.

Section 2.02 Holdover. If Lessee holds over and continues in possession of the Track after the Term expires, Lessee will be occupying the Track on a month-to-month tenancy, subject to all the terms of this Lease, at double the monthly rate in effect when the Term ends. Nothing in this Section shall be interpreted as providing Lessee the right to holdover and if Lessee fails to vacate the Track within ten days of a written request by Lessor, Lessee will be responsible for any legal fees incurred in the eviction process.

Article III – Lease Payments.

Section 3.01 Lease Amount. During the Term of the Lease, Lessee will pay Lessor rent in the amount of $450,000 annually in twelve monthly installments of $37,500 ("Lease Amount").

Section 3.02 Late Charges. Lessee will pay to Lessor the Lease Amount for each month on or before the fifth date of that month by mail to 14054 Fred & Al Key Road, Kiln, MS 39556 or at such other location or locations that Lessor may from time to time designate by written notice to Lessee. Lessee shall pay a late charge of five percent (5%) of any payment not received by Lessor by the tenth day of the month in which said payment is due. The late fees shall be cumulative month over month.

Section 3.03 Taxes and Assessments. In addition to the Lease Amounts and late charge specified in § 3.01 and § 3.02, Lessee will pay in full all real-property taxes, special assessments, and governmental charges of any kind imposed on the Track or leasehold interest in the Track commencing on the first day of the Term and continuing through the end of the calendar year in which the Term ends, including any special assessments imposed on or against the Track for constructing or improving public works. In the event Lessee occupies the Track only for part of a calendar year, Lessee will be responsible for any taxes and assessment resulting from such partial year occupancy. These taxes and assessments are payable directly to the entity imposing the tax, assessment, or charge. Lessor will forward to Lessee the tax notices and invoices related to the Track. Lessee will provide Lessor with a receipt or other evidence of payment for each tax, assessment, or charge paid as soon as a receipt or other evidence is available to Lessee, but not later than the date payment is due. Lessee will provide Lessor with a receipt or other evidence of its annual reporting requirements to the Tax Assessor/Collector of Hancock County for personal property and inventory on the Track subject to ad valorem property tax, which is due on or before March 30th of each year. Lessee shall provide notice to Lessor of any tax protest filed with Hancock County within seven (7) days of such notice being filed.

Article IV – Operations

Section 4.01 Operations. Lessor will deliver to and pickup railcars to the Track once a day on weekdays during regular business hours. Any additional service request outside normal business hours will be subject to the Tariff Special Switch rate. Pursuant to Section 1.02 above, Lessee is permitted to move railcars on the Track and to or from Lessee's spur track adjacent thereto. For clarity, Lessee shall not, under any circumstances, engage in any such activities outside the geographical boundaries of the Track or Lessee's spur track on its site, as those activities are reserved expressly and absolutely to Lessor.

Section 4.02 Obligations. Except as provided in the Tariff, Lessor shall have no further obligations relative to said railcars while in possession by Lessee on the Track, including, but not limited to, no obligation to (i) secure the railcars or their contents from theft, loss or damage while on the Track, (ii) protect the railcars from any leakage or spillage while the Track and (iii) protect the railcars from vandalism, weather or other acts of God. Lessee acknowledges that after the time the railcars are interchanged to Lessee, Lessor shall not be, and Lessee shall not assert that Lessor is, a common carrier, bailee or warehouseman with respect to such railcars or the contents thereof. While the railcars are in the possession of the Lessee, PBVR is not responsible for any accidents that may occur at grade crossings or on the Track.

Section 4.03 Right to reject. Pursuant to the Tariff and applicable law, Lessor, in its discretion, shall have the right (but not the obligation) to reject, and to not accept, any railcar it believes is damaged, requires special handling, does not comply with Federal Railroad Administration standards for interchange or with Association of American Railroad Interchange Rules, or is in a condition that raises safety and/or operational concerns. Lessee shall use commercially reasonable efforts to tender railcars to Lessor that are in good condition and free of cardable defect.

Article V -Track Maintenance and Damage Responsibility

Section 5.01 Repairs by Lessee. Lessee will throughout the Term, at its own expense and risk, maintain the Track in good order and condition, including but not limited to making all repairs and replacements necessary to keep the Track in the same condition as the Track was at the commencement of the Term as required by Lessor and as mandated by Federal Railroad Administration regulations. Lessor will examine the Track monthly and will report required repairs and preventative maintenance to Lessee. Lessee will have 30 days to make all repairs and preventative maintenance to Lessor's specifications. Lessee will be responsible for repairing damage to the Track resulting from a derailment, accident or negligence of the Lessee or its representatives; provided that Lessor will be responsible for the cost of repairs if the damages is caused by Lessor while moving railcars on the Track. Except for repairs and preventative maintenance as set forth above, Lessee may not make any alterations, additions, or improvements to the Track without Lessor's prior written consent. If Lessee fails to make the repairs or perform the preventative maintenance on the Track and such failure is not cured by Lessee within 30 days of Lessor's notice of such breach, Lessor then shall have the absolute right to terminate this Lease immediately. Immediately following such termination for breach as provided herein, Lessor shall have the right to make the repairs, or to perform the preventative maintenance which Lessee failed to perform, and then to submit to Lessee all costs, fees and

expenses directly associated with same to Lessee for reimbursement. Such reimbursement shall be due immediately from Lessee.

Section 5.02 Delivery of Track at End of Term. Lessee shall remove all Lessee owned railcars from the Track at the end of the Term. The Track shall be returned to Lessor in the same or better condition as it was at the inception of the Lease. Other than railcars and the contents therein which may be left on the Track for movement by Lessor, Lessor may retain, destroy, or dispose of any Lessee property left on the Track at the end of the Term without liability to Lessee for loss or damage.

Section 5.03 Lien. Lessee will not permit any lien to be placed on the Track. Lessee must promptly notify Lessor as to any liens threatened against Lessee or attached against the Track. Lessee will promptly pay any lien that is filed on the Track as a result of the actions or omissions of Lessee. Lessee is not responsible for liens filed on the Track related to Lessor or its actions or omissions If default in payment of the lien for which Lessee is responsible continues for 20 days after Lessee's receipt of Lessor's written notice, and in any case before the date on which any proceedings to foreclose on such lien begin, Lessor may, at its option, pay the lien or any portion of it without inquiring into its validity. Any amounts Lessor pays to remove a lien caused by Lessee to be filed against the Track, including expenses and interest, are due from Lessee to Lessor and must be repaid to Lessor immediately on rendition of notice, together with interest at eighteen (18) percent annually until repaid.

Section 5.04 Allocation of Environmental Cleanup Costs. Lessee is responsible for the payment of that portion of any cleanup costs necessary for compliance with Hazardous Materials Laws that arise as a result of discharge of Hazardous Materials on the Track by Lessee or Lessee's employees, agents or contractors other than Lessor.

Article VI – Private Track Lease

For the purpose of compliance with governmental regulations, Lessor and Lessee agree to specifically designate in writing the Track as "Private Track" as defined under 49 CFR 171.8. Notwithstanding any provision of this Agreement to the contrary, Lessor and Lessee agree that (1) the use, control and responsibility for any portion of the Tracks designated as Private Track shall be exclusive to Lessee, and (2) no change or substitution in the specific location of any designated Private Track shall be valid unless agreed to in writing by Lessor and Lessee.

(e) Lessee shall coordinate with Lessor regarding environmental issues related to the Track.

Lessee shall provide updated versions of this report as new materials are stored on the Track.

Section 7.02 Regulatory Reporting Requirements.

- Purpose of the Plan, operational objectives, definitions, and system elements.
- Operating Management and Maintenance.
- Service Interruptions.
- Standard Operating Procedures

Section 2.01 Purpose of the Plan

This Plan will serve as the principle source document that sets forth the operations and maintenance practices necessary to ensure rail car movement is performed in a safe, dependable and efficient manner, and provide a quality service to the Polychemie plant (the "Site").

The Plan is intended to serve as a basis for definition of operations and maintenance methods, practices, and requirements. This document will be reviewed and updated as necessary.

Section 2.02 Operational Objectives

The safety and wellbeing of our employees, Port Bienville, and the neighboring communities, including adjacent automobile traffic, is the first priority of rail operations and all operational planning efforts. Safety and security issues related to PROP will be fully addressed in the site's Responsible Care Management System (RCMS) procedures and policies.

Section 2.03 Definitions

"Consist" is the number of cars in a train.

"***Frog"*** is a Track assembly placed where one rail of a Track crosses the rail of another track.

"***Pocket Track"*** is a Track adjacent to a main Track used for staging, temporary storage or passing of trains.

"Spotter" is the individual monitoring the activities of the Train Operator.

"***Switch"*** is a pair of moveable rails with their fastenings and operating rods, providing a connection over which to divert the movement of rolling stock and other on-track equipment.

"Track" is the rail, ties, rail fastenings, and hardware configured as a parallel pair of rails to support and allow the movement of rolling stock and other on-track equipment.

"Train Operator" is the individual directly in control of a train.

"***Turnout"*** is a particular grouping of two tracks joined together with a Frog and Switch so arranged to allow for the transfer of rolling stock and on-track equipment to cross from one Track to another.

"Yard" is a system of Track used for making up trains and the storage of rolling stock.

Section 2.04 System Elements

As reflecting in Appendix A attached hereto, the internal Yard has four spurs fed by a single Track that traverses from East to West along the north boundary of the Site within the Port Bienville Industrial Park. The Port Bienville Railroad (PBVR) has a track that runs in a Northeast-Southwest direction with a Pocket Track approximately 150 feet from facility rail gate. The Pocket Track is approximately 1300 feet long and is currently leased to Polychemie on a per month basis. The Yard is used for storage of the raw materials and product cars used at the Site.

SNF POLYCHEMIE

(a) Turnouts

The PBVR tracks have two (2) points where the rail mover is not allowed pass for switching operations. These are located to the Northeast side of the Site and are used to mark track access limits and indicated by x. These limits are identified as P.O.B.1 (B) and P.O.T.1 (see Figure 1 below).

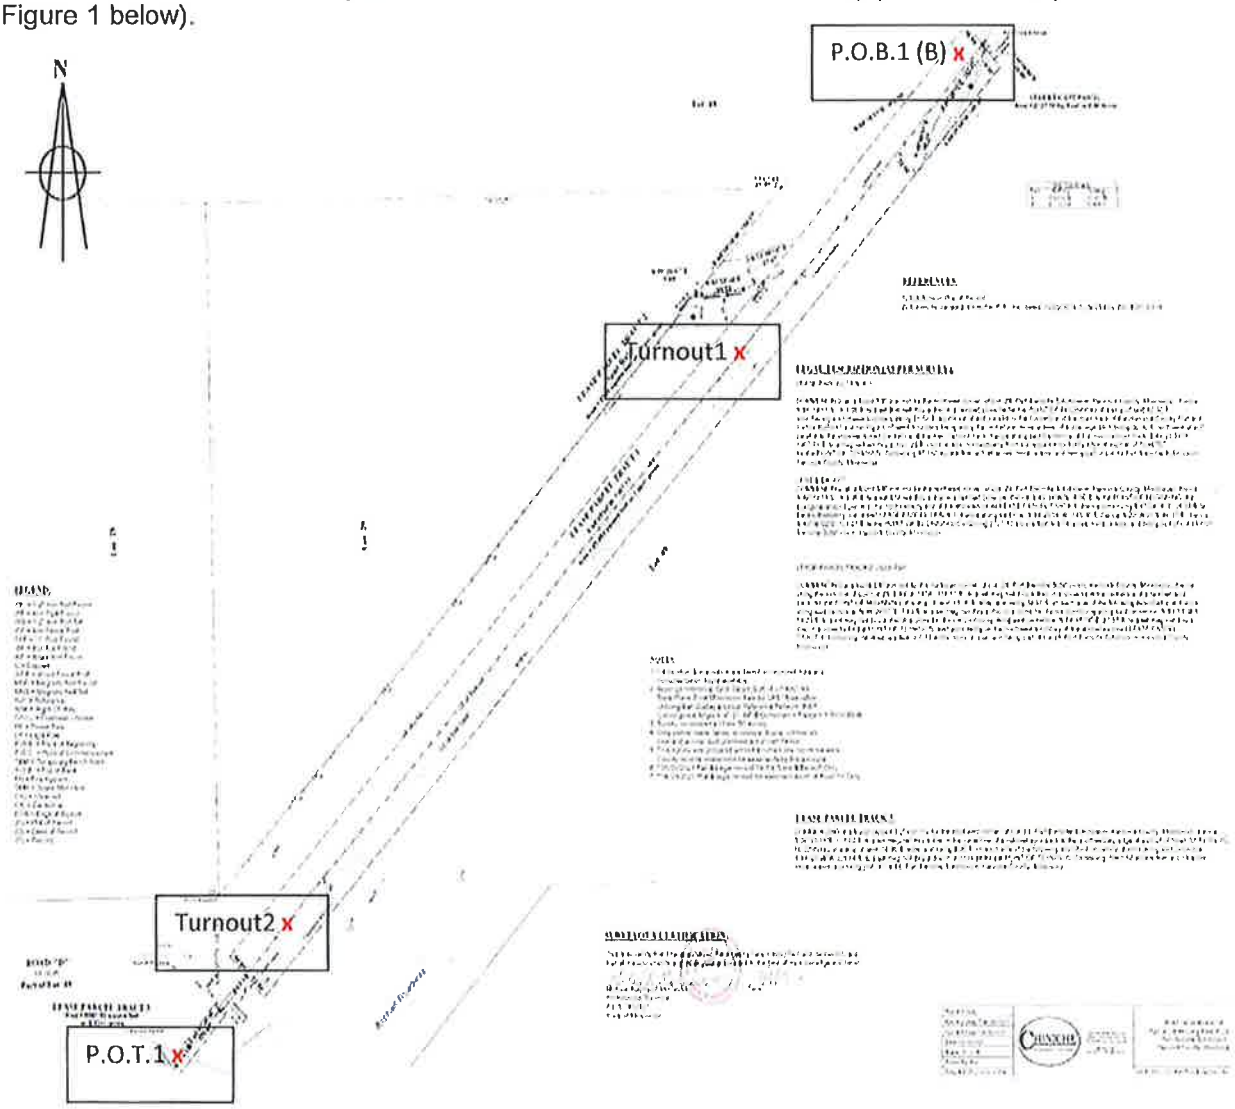

Figure 1: Rail Survey

Turnout 1 and 2 allows access to the Pocket Track where Polychemie has stored raw material or product cars. There are several Frogs and Switches that are part of the makeup of the Turnouts. Polychemie will make movements along these tracks with inbound or outbound cars.

Attachment: Resolution# 20210913-11 Authorizing execution of an industrial track lease with Polychemie, Inc. for 3 year term 10-1-2021

SNF POLYCHEMIE

(b) Communications

The Bulk Material Handling team (Team) will utilize a multi-channel two-way radio to communicate during hours of operation. Communications will be directed between the Train Operator and Spotter on channel 5 that is used solely for the purpose of moving cars into their specified positions. Channels 1, 2, 3, and 4 are predesignated for operations, maintenance, warehouse and emergency uses respectively.

(c) Signals

The Team will follow procedures for use of signals when off-loading railcars. The procedures are found on the corporate site under Production, regarding raw material unloading.

Article III. OPERATING MANAGEMENT AND MAINTENANCE

This section of the Plan briefly describes the management structure, time of operations and movements, and maintenance requirements for safe operations.

Section 3.01 Management

Polychemie will employ a team of 4 Train Operators/Spotters, which are cross trained to perform each other's functions, and a Bulk Material Handling Supervisor. The primary functions of each are briefly described below:

The Bulk Material Handling Supervisor (Supervisor) is responsible for numerous activities related to inbound, offloading, outbound, and packaged Inventory material pertaining to the Site. The Train Operator and Spotter report to the Supervisor. The Supervisor will set a rotating schedule that will cover the necessary time to accomplish service to positively impact production capacities. Two teams consisting of a Train Operator and a Spotter will operate on a twelve (12) hour rotating schedule; seven (7) days per week; 365 days per year. The schedule rotation will be such that affords members to have every-other-weekend off. Overtime will be subject to approval by the Supervisor. Every attempt to make rail movements within the Site will be performed during daylight hours unless otherwise determined necessary by the Supervisor. The rotating schedule will be posted annually. Daily work duty assignments will be the Supervisor's responsibility and posting of work will be done on a weekly basis. The top priority for the group is to off-load raw materials and tender finished product cars to PBVR system. The schedule for off-loading of raw materials will be determined by operation tank levels. All rail movements will be made through notification by the Raw Material Planner to the Supervisor utilizing the Raw Material Receiving tool. This position will work closely with Operations (all departments) and Planning. This position reports to the Site Manager. All mandatory regulatory training will be included in training matrix for this position.

The Train Operator is responsible for the safe operation of the rail mover. He will receive, couple, and move raw material and product railcars in order to remove chemicals used in or shipped from the process. His other duties will include off-loading of raw materials, off-load package inventories, spot tankers/trailer and relabel inventory for shipment to end-use customers when not functioning in the Train Operator capacity. All mandatory regulatory training will be included in training matrix for this position.

Attachment: Resolution# 20210913-11 Authorizing execution of an industrial track lease with Polychemie, Inc. for 3 year term 10-1-2021

SNF POLYCHEMIE

The Spotter is responsible for the safe operation of the movements of the railcars that are on site. In addition, he ensures proper coupling/decoupling of railcars, ensure derail flags and signals are utilized, and that the path of travel of the railcars is unobstructed. His other duties will include off-load raw material, off-load package inventories, spot tankers/trailer and relabel inventory for shipment to end-use customers when not functioning as a Spotter. All mandatory regulatory training will be included in training matrix for this position.

Each Train Operator/Spotter will be cross-trained in each position to function in all the capacities necessary for safe operations. The position filled on a daily basis will be assigned by the Supervisor ensuring that each operator has an opportunity to rotate through every position within the group. The frequency of assignment changes is at the discretion of the Supervisor.

Section 3.02 Time of Operations and Movements

The Team will make approximately two rail movement per day or about twelve (12) per week with an occasional fourteen (14) to fifteen (15) per week during peak seasons. The Consist will be about six (6) to eight (8) cars long and will require multiple movements on both Polychemie internal Track as well as PBVR Track utilizing the Turnouts as described in Section 1.4.1 Turnouts, and per agreement between Polychemie and PBVR. It is reasonable to assume that the Team could be on PBVR tracks for a period of eight (8) to ten (10) hours per day. All regulations that govern PBVR systems will be adhered to by the Team. PBVR operates per Federal and State regulations, thus, Team shall also coordinate with the FRA and MDOT to see what further requirements are mandated.

Section 3.03 Maintenance

(a) Site Track Maintenance

The Track within the Site will be maintained according to Polychemie Site procedures as outlined in the Maintenance Department procedures, incorporated herein by reference. Additionally, track leased from PBVR shall be maintained in good condition to meet all FRA requirements. Preventative maintenance will be scheduled in conjunction with the Team, the Site maintenance group, the Site planning department and any outside contractor deemed necessary by the procedure. Any item that needs repair work discovered during walk-downs or audits will be addressed through the work order system.

(b) Rail Mover Maintenance

The maintenance program for the rail mover will be best practices as established within Polychemie's guidelines and the rail mover manufacturer's operating manual. All maintenance services will be performed by an authorized service company and scheduling will be made by the Supervisor.

(c) PBVR Track Maintenance

The maintenance of the Pocket Track associated with Polychemie and PBVR will be determined per negotiated contract. For clarification, negotiated contract and incorporated within this operating plan, Polychemie shall throughout the term of the lease will at its own expense and risk maintain the track in good order and condition, including but not limited to, making all

Attachment: Resolution# 20210913-11 Authorizing execution of an industrial track lease with Polychemie, Inc. for 3 year term 10-1-2021

SNF POLYCHEMIE

repairs on the Track to keep it in the same condition as the inception of the lease as required by PBVR and mandated by the FRA regulations. Polychemie will work with PBVR to identify and repair, in a timely manner, any issues discovered during walk-downs or daily operations.

Article IV. SERVICE INTERUPTIONS

(a) Introduction

The Team will make every effort to meet the demand of the Site. The Supervisor will inform Site management as well as PBVR management that an interruption is necessary when conditions are such. Several conditions could cause an interruption to service:

- Unplanned Outages (Equipment failures)
- Incidents
- Preventative Maintenance

(i) *Unplanned Outages*

1) Rail Mover Breakdown

In the event of a rail mover breakdown, the Supervisor will notify the service vendor of the criticality of the outage. Polychemie has a twenty-four hour repair agreement with the vendor. The vendor will assess the situation and affect repairs. If repairs have extended part lead times, the Supervisor will work with the vendor to supply the loaner rail mover agreed to by contract with the service vendor.

If the vendor is unable to supply the loaner rail mover per agreement, the Supervisor will notify PBVR to request use of its rail mover. This notification will occur as outlined by agreement between Polychemie and PBVR. The use of the PBVR mover will occur in accordance with that agreement.

2) Track Repairs (Internal)

The Supervisor will work with Maintenance to schedule the necessary outside contractor to perform internal Track repairs. The Supervisor will work with the Planning Supervisor, Production Area Manager, Raw Material Logistician and the Maintenance Manager to schedule the work. Every effort will be made to return the Track to service, however, there may be times when the Raw Material Logistician will have to secure trucks for raw materials and the Planning Supervisor may need to secure tankers for delivery of finished goods.

3) Track Repairs (External)

The Supervisor will work with PBVR manager to perform any necessary unplanned repairs on the PBVR Track. The agreement between Polychemie and PBVR will govern costs of repairs and impact to Polychemie production capacities.

Attachment: Resolution# 20210913-11 Authorizing execution of an industrial track lease with Polychemie, Inc. for 3 year term 10-1-2021

SNF POLYCHEMIE

(II) *Incidents*

In the event of an incident (e.g. a derailment, damage to cars, etc.) the Supervisor will work with the appropriate parties to mitigate impacts to the safety policies, environmental policies and production process. All incidents will require an investigation utilizing the RCA tools as employed by Polychemie.

(iii) *Preventative Maintenance*

Planned maintenance on the rail mover, internal Track and PBVR Track will occur when required by procedures discussed earlier. When these activities occur, the Supervisor will work with all affected parties to ensure a seamless process that has little impact to the Site. If the work is initiated by PBVR, notification to the Supervisor will be made by PBVR to allow for proper planning of railcar movements and to impact the production schedule as least as possible.

Article V. STANDARD OPERATING PROCEDURES

Standard Operating Procedures (SOPs) are available on the corporate internet. Hard copies following controlled document guidelines are available in the Supervisor's office. These documents describe the proper use of equipment and/or guidelines for actions to be taken in specific situations.

Section 5.01 Training

The Site trainer will work with each member of the Team to obtain any certifications required for the assigned role, communicate important changes with regards to the Site or its functions, ensure annual procedural certifications as outlined in PSM guidelines and ensure accuracy of procedures. A schedule of monthly training is assigned to the Team utilizing the company's computer based training tools and according to the training matrix. The Supervisor is responsible for ensuring that each member completes the annual training.

Section 5.02 Prestart up Safety Inspection

The Train Operator will complete a prestart up inspection check list every 12 hours and upon initial startup. The inspection may be on paper form or through instrumentation attached to the rail mover. The information is archived as defined in the Site document control procedure. Any check list item not meeting satisfactory operation criteria will require the equipment to be locked out until affected repairs are made. The Train Operator will follow procedure for notification to Supervisor.

Section 5.03 Procedure Revisions, Updates, or Changes

The Supervisor is responsible for ensuring the accuracy of all procedures for the Team. Any knowledge gained from incidents that occur, changes to regulatory standards, or other necessary updates will be made in conjunction with the Site Trainer and a Management of Change (MOC) is required. Procedures for inbound deliveries and outbound pick-ups will need

Attachment: Resolution# 20210913-11 Authorizing execution of an industrial track lease with Polychemie, Inc. for 3 year term 10-1-2021

SNF POLYCHEMIE

to be approved prior to start of contract. PBVR will only enter the track located outside of Poly's gate for inbound and outbound railcar movement in support of operations of Poly and PBVR..

Section 5.04 Consist Assembly

The Train Operator will position the rail mover in a manner consistent with the procedures. A Spotter will be present at all times when the rail mover is assembling the Consist. The Consist will not exceed the capabilities of the rail mover (as stated on the rail mover name plate and/or operating manual). Constant radio communications is required between Spotter and Train Operator. The Spotter controls the coupling/decoupling as this is the best vantage point for this activity.

Section 5.05 Troubleshooting Equipment

The SOPs have sections addressing most common issues. When issues arise that has not been identified in the SOPs, an appropriate investigation will be conducted and the learnings will be added to the procedure if warranted.

Section 5.06 Management Tools

The Site currently uses a manufacturing execution system (MES) to analyze trends and make decisions on a daily basis. Systems for raw material planning, production planning, inventories, maintenance work orders and best safety practices already exist. Those systems will be utilized for PROMP. In the event other analysis is necessary those systems will be developed and added accordingly.

TERMS AND CONDITIONS OF SALE

1. Payment Terms. All balances are due on delivery or on the 10th of the month following the purchase at the option of Stribling. A finance charge of 1 1/2% per month or the maximum permitted by law whichever is less will be added to all balances past due. Customer is responsible for any present or future excise, sales, use or other tax applicable to the sale or use of the goods or services purchased hereunder, and agrees to defend, indemnify and hold Stribling harmless of and from any claim or demand for same.

2. Forum Selection Clause and Choice of Law. To the extent any matter is not covered by arbitration as provided below, the exclusive venue for any proceeding relating in any manner to this invoice, any transaction with Stribling (or any person or entity associated with Stribling) or Customer's business relationship with Stribling and Customer will be a state court in Rankin County, Mississippi (except for claims relating to facilities located outside of Mississippi, then in the county where such facility is located), or in any federal court having jurisdiction over such county. All disputes arising out of or related to this transaction shall be governed by the laws of the State of Mississippi.

3. Disclaimer of Warranties and Limitation of Liabilities. To the fullest extent permitted by law, Stribling hereby expressly disclaims all warranties, either expressed or implied, including any warranty of merchantability or fitness for a particular purpose, and Stribling neither assumes nor authorizes any other person to assume for it any liability in connection with the sale of said goods or services. The liability of Stribling for all claims in contract, tort (including negligence and products liability) or otherwise arising out of or resulting from the purchase of the goods and/or services shall not exceed the price to Customer of/and/or the good or service which gives rise to the claim, and in no event shall Stribling's liability exceed the total purchase price of this invoice. In no event shall Stribling be liable for any incidental, consequential, punitive, exemplary, indirect, or special damages including, but not limited to, injuries to persons or damage to property, loss of profits or anticipated profits, or loss of use. Any warranties on the product sold hereby are those made by the manufacturer which shall be the sole and exclusive remedy, whether in contract, warranty, tort or strict liability.

4. Cost of Collection. In the event Customer defaults in the payment of the amount due herein, Customer agrees to pay for all costs of collection, including without limitation, all court costs and attorneys' fees.

5. Arbitration Agreement and Waiver of Jury Trial. Stribling and Customer hereby agree to this arbitration agreement ("Arbitration Agreement").

a. CLAIMS AND DISPUTES COVERED. Except for those claims described below under the heading "MATTERS NOT COVERED BY ARBITRATION," Stribling and Customer agree that either party may elect to resolve by BINDING ARBITRATION all claims and disputes between us ("Covered Claims"). This includes, but is not limited to: all claims and disputes arising out of, in connection with, or relating to Customer's business relationship with Stribling; any and all invoices, transactions, solicitations, all documents, proposals, or advertising; any actions or omissions relating to this or any other matter between Stribling and Customer; whether any such claim must be arbitrated; the validity and enforceability of this Arbitration Agreement and this agreement; any alleged fraud or misrepresentation; and claims based on or arising under any federal, state, or local law, statute, regulation, ordinance or rule; any claim or dispute based on any alleged tort (wrong), including intentional acts; and any claim for injunctive, declaratory or equitable relief.

b. COVERED CLAIMS AGAINST THIRD PARTIES. This Arbitration Agreement also covers any claim or dispute between Customer and any of Stribling's employees, officers, agents or directors; any of its affiliate entities; any third parties related to its transactions; and any of the employees, officers, agents or directors of such affiliates or third parties. In addition, if Stribling becomes a party in any lawsuit that Customer has with any third party, whether through intervention by Stribling or by motion made by Customer or any third party, all claims in that lawsuit between Customer and the third party will be subject to binding arbitration under this Arbitration Agreement, provided that the third party is required to agree to resolve such claims by arbitration.

c. MATTERS NOT COVERED BY ARBITRATION. Customer agrees that Stribling does not have to initiate arbitration before exercising lawful self-help remedies or judicial remedies of garnishment, repossession, replevin, or foreclosure, but instead may proceed in court for those judicial remedies (an "Excluded Collateral Lawsuit"). Customer may assert in court any defenses Customer may have to Stribling's claims in an Excluded Collateral Lawsuit, but any claim or counterclaim for recession or damages Customer may have arising out of, relating to, or in connection with Stribling's exercise of those remedies must be arbitrated. Instead of pursuing arbitration, either Stribling or Customer also have the option to bring a lawsuit in court to seek to recover an amount which does not exceed the total sum of $25,000 (including costs and attorneys' fees), provided that no relief other than such recovery is requested in such lawsuit (an "Excluded Damages Lawsuit"). If an Excluded Damages Lawsuit is filed, the other party cannot require that the claims in that lawsuit be arbitrated. If such an Excluded Damages Lawsuit is filed by Customer or Stribling, and any party to that lawsuit files an amendment, counterclaim, cross-claim, or third-party claim seeking to recover more than $25,000, then that claim, counterclaim, cross-claim or third party claim must be arbitrated in accordance with the procedures set forth in this Arbitration Agreement. Neither Customer nor Stribling shall be deemed to have waived any arbitration rights by the fact of having exercised any self-help or judicial remedies, or by having filed any claims including but not limited to an Excluded Damages Lawsuit in a court.

d. ARBITRATION FORUM AND RULES. The arbitration will be conducted in accordance with the Commercial Arbitration Rules of the American Arbitration Association ("AAA") and shall be conducted by the AAA or any other arbitrator selected by mutual agreement of the parties. The arbitration shall be conducted in Rankin County, Mississippi (except for claims relating to facilities located outside Mississippi, then in the county where such facility is located). All fees and charges of the Arbitrator shall be shared equally or awarded. However, that the Arbitrator may award reimbursement of such costs to the prevailing party. Each party shall also pay for its own costs, including fees for attorneys, experts and witnesses, unless otherwise provided by law or section 6 above, to the extent permitted by applicable law.

TO THE FULLEST EXTENT PERMITTED BY LAW, BOTH STRIBLING AND CUSTOMER ARE VOLUNTARILY WAIVING ANY RIGHT TO AN ADJUDICATION BY A COURT OF LAW (INCLUDING TRIAL BY JURY) OF ALL CLAIMS AND DISPUTES COVERED BY THIS ARBITRATION AGREEMENT.

If there are problems with this repair visit, we must be contacted immediately in order to expedite the follow up procedures

Dear Mrs. Jones,

Please see the following clarification/response to the award letter request received by your agency.

Budget corrections/additional information:

1. Clarification for the cost of health insurance: The amount of $317.64 per pay period is the employee paid portion of individual health insurance per pay period (bi-weekly) and computes to $8,258.64 total project cost. The Federal cost of this is $6,193.98 with a match of $2064.66.
2. In-state travel:
    a. The meals per diem have been corrected to $56/day in the budget, and is attached.
    b. The "other" line items are explained in the budget narrative, covering both registration and hotel parking.
    c. Mileage was calculated at the Mississippi State average at the time of the application, of $2.71 per gallon. The distance was calculated from the Hancock County Sheriff's Office to the Hotel in Dallas, TX and back, for a total of 1061.80 miles. At 23.5 miles per gallon in the Nissan Pathfinder the Domestic Violence Investigator drives, this computes to 45.18 gallons of gas needed. The total for the trip in gas cost should be $122.44.
3. A letter of cooperation from the Gulf Coast Center for Nonviolence has also been attached.

Dear Amy,

The Gulf Coast Center for Nonviolence (Center) is a private, nonprofit organization that provides support and advocacy to individuals who have been impacted by domestic violence, sexual assault, homicide and human trafficking in the southernmost six counties of Mississippi. The Center is pleased to provide this letter of cooperation for Hancock County Sheriff's Department (HCSD) to assist in the obtaining of necessary funding to provide services to victims of interpersonal violence. The Center is proud of the long-term, productive relationship it has built and maintained with the HCSD. Our Court Advocates, Counselors and Outreach Education staff work closely with the Sheriff and Deputies to assure that victims are provided with the most impactful and effective services possible to assist in breaking the cycle of violence.

We appreciate the partnership and look forward to many more years of service with your department. If additional information is needed, please feel free to contact me at (228) 436-3809.

Dear Mrs. Jones,

Please see the following clarification/response to the award letter request received by your agency.

Budget corrections/additional information:

1. Clarification for the cost of health insurance: The amount of $317.64 per pay period is the employee paid portion of individual health insurance per pay period (bi-weekly) and computes to $8,258.64 total project cost. The Federal cost of this is $6,193.98 with a match of $2064.66.
2. In-state travel:
    a. The meals per diem have been corrected to $56/day in the budget, and is attached.
    b. The "other" line items are explained in the budget narrative, covering both registration and hotel parking.
    c. Mileage was calculated at the Mississippi State average at the time of the application, of $2.71 per gallon. The distance was calculated from the Hancock County Sheriff's Office to the Hotel in Dallas, TX and back, for a total of 1061.80 miles. At 23.5 miles per gallon in the Nissan Pathfinder the Domestic Violence Investigator drives, this computes to 45.18 gallons of gas needed. The total for the trip in gas cost should be $122.44.
3. A letter of cooperation from the Gulf Coast Center for Nonviolence has also been attached.

Travel - In State Narrative

Out of State travel reimbursement is being requested for the Domestic Violence Investigator to attend the 2022 Conference on Crimes Against Women in Dallas, TX in Spring of 2022. The goal of attending this conference is to improve delivery of services to victims. The 2021 program was invaluable to the investigator and continued education is essential. The first "other" item is for the cost of registration. For "Mileage", this is a projected cost for gas based off of current rates. The DV Investigator drives a 2019 Nissan Pathfinder that gets 23.5 miles per gallon. We have estimated that he will need 45.18 gallons of gas at the gas average of $2.71 per gallon. This totals to $122.44 for the trip to Dallas and back. Hotel and meal rates are based off of the federal Per Diem rates for Dallas, TX. The second "other" item is to be used for parking at the hotel, with the cost being directly taken from the conference website. According to the website, teh goal of the Conference on Crimes Against Women is to provide practical instruction, using current information, the newest ideas and most successful intervention strategies, to those professionals responsible for combating the many and varied forms of crimes against women. Some of the classes offered cover the following: Investigations, Victim Testimony, Victim Interviewing Techniques, Domestic Violence Fatality Review Teams, and more.

Dear Amy,

The Gulf Coast Center for Nonviolence (Center) is a private, nonprofit organization that provides support and advocacy to individuals who have been impacted by domestic violence, sexual assault, homicide and human trafficking in the southernmost six counties of Mississippi. The Center is the oldest and largest domestic violence and sexual assault program in the state and has been a pioneer in the effort to create quality, meaningful services for individuals impacted as well as raise awareness in this community.

The Center is pleased to provide this letter of cooperation for Hancock County Sheriff's Department (HCSD) to assist in the obtaining of necessary funding to provide services to victims of interpersonal violence. The Center is proud of the long-term, productive relationship it has built and maintained with the HCSD. Our Court Advocates, Counselors and Outreach Education staff work closely with the Sheriff and Deputies to assure that victims are provided with the most impactful and effective services possible to assist in breaking the cycle of violence.

We appreciate the partnership and look forward to many more years of service with your department. If additional information is needed, please feel free to contact me at (228) 436-3809.

Advice for Completing the Application

MDAH staff has prepared the following advice to cover the parts of grant proposals that are most often found to be incomplete or inadequate. The Local Government Records Management Grant Program is competitive, and by following this advice your proposal will be more effective. Applications will only be reviewed after the Application Deadline. The LGRO staff will not complete the application for you. There is no guarantee a project will be funded, but a well-developed proposal has a better chance.

Dos and Don'ts in Preparing Grant Proposals:

Do Submit questions in writing (by email to locgov@mdah.ms.gov) to the LGRO by July 16, 2021. Responses will be posted online within seven (7) business days.

Do Consult the CRI Report notebook and ask the LGRO staff if there are questions about completing the application.

Do Assemble the proposal carefully following the order given in the Application Checklist. Include detailed project descriptions, budget, matching share, and any required documentation. It is much easier to find a specific part of any application when they are all assembled in the same manner. This ensures that the proposal can be reviewed in its entirety. The evaluation of each application is directly derived from the content and not the appearance of the grant proposal.

Do Give your proposal to someone else to read before submitting, preferably someone not connected with the project. If the reader has questions about the project, then the application may not be clear enough. You will then have the opportunity to rework it.

Do Prepare your application early. If parts are missing or incomplete you will have time to make necessary corrections before the final deadline.

Do Ask for letters of support from local people, organizations, and political representatives early. This allows the letters to be submitted with the application. Letters received after the final deadline will not be considered.

Do Read the instructions thoroughly to make sure you have completed the application correctly.

Attachment: Application, unsigned (9787 : Application for MDAH Grant for repairs to Land Record Books)

Don't Wait until the last minute to begin preparing your application. Supporting documentation is extremely important and may take several weeks to pull together. Proposals written at the last minute often lack necessary details and documentation, and as a result generally do not score well. Remember, this is a competitive program—take time to put together a quality application.

Don't Submit your application with the pages inserted in plastic sleeves.

Don't Tape, staple, or attach prints of digital images to pages.

Advice for Completing the Application

MDAH staff has prepared the following advice to cover the parts of grant proposals that are most often found to be incomplete or inadequate. The Local Government Records Management Grant Program is competitive, and by following this advice your proposal will be more effective. Applications will only be reviewed after the Application Deadline. The LGRO staff will not complete the application for you. There is no guarantee a project will be funded, but a well-developed proposal has a better chance.

Dos and Don'ts in Preparing Grant Proposals:

Do Submit questions in writing (by email to locgov@mdah.ms.gov) to the LGRO by July 16, 2021. Responses will be posted online within seven (7) business days.

Do Consult the CRI Report notebook and ask the LGRO staff if there are questions about completing the application.

Do Assemble the proposal carefully following the order given in the Application Checklist. Include detailed project descriptions, budget, matching share, and any required documentation. It is much easier to find a specific part of any application when they are all assembled in the same manner. This ensures that the proposal can be reviewed in its entirety. The evaluation of each application is directly derived from the content and not the appearance of the grant proposal.

Do Give your proposal to someone else to read before submitting, preferably someone not connected with the project. If the reader has questions about the project, then the application may not be clear enough. You will then have the opportunity to rework it.

Do Prepare your application early. If parts are missing or incomplete you will have time to make necessary corrections before the final deadline.

Do Ask for letters of support from local people, organizations, and political representatives early. This allows the letters to be submitted with the application. Letters received after the final deadline will not be considered.

Do Read the instructions thoroughly to make sure you have completed the application correctly.

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the instructions for line 1 and the chart on page 4 for guidelines on whose number to enter.

"The human body burns with the casket, container or other material in the cremation chamber. Some bone fragments are not combustable at the incineration temperature and, as a result, remain in the cremation chamber. During the cremation, the contents of the chamber may be moved to facilitate incineration. The chamber is composed of ceramic or other material which disintegrates slightly during each cremation and the produce of that disintegration is commingled with the cremated remains. Nearly all of the contents of the cremation chamber, consisting of the cremated remains, disintegrated chamber material,and small amounts of residue from previous cremations, are removed together and crushed, pulverized or ground to facilitate inturnment or scattering. Some residue remains in th cracks and uneven places of the chamber. Periodically, the accumulation of this residue is removed and interred in a dedicated cemetery property or appropriate area."

SCHOOL RESOURCE OFFICER AGREEMENT

This School Resource Officer Agreement is entered between the Hancock County School District and the Hancock County Board of Supervisors and the Hancock County Sheriff's Office on this the ____ day of September, 2021.

I. SCHOOL RESOURCE OFFICER AGREEMENT

The School Resource Officer Program places a Hancock County Sheriff's Deputy in the Hancock County School District (District). The School Resource Officer Program will be a joint effort of the Hancock County Sheriff's Office and the Hancock County School District.

The responsibility of a School Resource Officer (SRO) encompass components of Law Enforcement, Counseling and Education.

This is a pro-active approach to law enforcement through positive role modeling. These three components allow the SRO to promote positive relationships between youth and law enforcement, which in turn promotes school safety and deters juvenile delinquency.

II. PROGRAM OBJECTIVES

The objectives of the School Resource Officer Program are as follows:

a. To provide better school resource assistance to school personnel, students, and parents in the school system.

b. To orient students of the school system toward a positive concept of police and law enforcement.

c. To develop better understanding of the law enforcement function among students, faculty, and parents.

d. To combat crime on a pre-delinquent, preventative basis.

e. In addition, it provides for investigation of criminal offenses committed by students and their referral to the appropriate agency for assistance when it becomes apparent that they have social, economic, or psychological problems that might result in an act of juvenile delinquency. It should be noted that officers do not attempt to resolve the problem, but refer the student to the appropriate professional or agency that assists them in resolving the problem.

III. HANCOCK COUNTY'S OBLIGATIONS

a. The District hereby engaged the Hancock County Sheriff's Office to make available to the District the services of four (4) law enforcement officers.

b. Each law enforcement officer who provides the services hereunder shall, at all times, be certified by the Mississippi Board of Peace Officer Standards and Training.

c. The Hancock County Sheriff's Office will attempt to, at a minimum, provide

SCHOOL RESOURCE OFFICER AGREEMENT

This School Resource Officer Agreement is entered between the Bay-Waveland School District and the Hancock County Board of Supervisors and the Hancock County Sheriff's Office on this the 4 day of September, 2021.

I. SCHOOL RESOURCE OFFICER AGREEMENT

The School Resource Officer Program places a Hancock County Sheriff's Deputy in the Bay St. Louis-Waveland School District (District). The School Resource Officer Program will be a joint effort of the Hancock County Sheriff's Office and the Bay St. Louis-Waveland School District.

The responsibility of a School Resource Officer (SRO) encompass components of Law Enforcement, Counseling and Education.

This is a pro-active approach to law enforcement through positive role modeling. These three components allow the SRO to promote positive relationships between youth and law enforcement, which in turn promotes school safety and deters juvenile delinquency.

II. PROGRAM OBJECTIVES

The objectives of the School Resource Officer Program are as follows:

a. To provide better school resource assistance to school personnel, students, and parents in the school system.

b. To orient students of the school system toward a positive concept of police and law enforcement.

c. To develop better understanding of the law enforcement function among students, faculty, and parents.

d. To combat crime on a pre-delinquent, preventative basis.

e. In addition, it provides for investigation of criminal offenses committed by students and their referral to the appropriate agency for assistance when it becomes apparent that they have social, economic, or psychological problems that might result in an act of juvenile delinquency. It should be noted that officers do not attempt to resolve the problem, but refer the student to the appropriate professional or agency that assists them in resolving the problem.

III. HANCOCK COUNTY'S OBLIGATIONS

a. The District hereby engaged the Hancock County Sheriff's Office to make available to the District the services of two (2) law enforcement officers.

b. Each law enforcement officer who provides the services hereunder shall, at all times, be certified by the Mississippi Board of Peace Officer Standards and Training.
